## Kitchen Bin Charcoal Filter

Enhance your composting experience with our innovative Charcoal Filter lid attachment for the Nova Kitchen Organics Bin. Designed to control odours and maintain a cleaner kitchen environment, this attachment is perfect for any household looking to keep their space fresh and odour free.

### Features:

- Crafted from a unique blend of high-density polyethylene (HDPE) and post-consumer recycled (PCR) material
- Fits a 10mm thick charcoal foam filter.
- Charcoal foam filter neutralizes odours.
- Keeps your kitchen smelling fresh even with 2-week-old compost.
- Allows airflow while minimizing odour release.
- Mold resistance to maintain a clean and hygienic environment.
- Simple attachment to standard kitchen organics bins with a drop hole slot.
- Easy to remove and clean the filter as needed.
- Custom colours available.

### Kitchen Bin Lid Charcoal filter

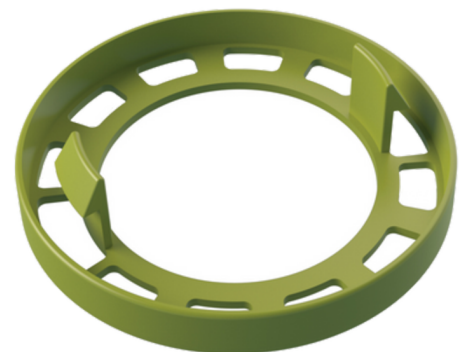

Diameter	3.7"
Ring Height	0.5"
Total Height	1"
Weight	18 grams

Attaches to any Nova kitchen organics bins with a drop hole slot.

Fits 10mm thick charcoal foam, allowing ventilation to keep moisture out and odours in.

Two finger squeeze tabs to release from lid for easy cleaning and access for foam refilling.
